Original Perspectives on Field Research, Anthropology and Archaeology

by Bruce Raphael, American-Australian Researcher, Writer

Australia Rediscovered 34 Years of Research into evidence of

an astronomical observatory dated 3100 BCE in outback Far North Queensland, Australia. The evidence was shared with the late Rush Allen, friend and a mentor in astro-archaeology, astronomy and cosmology. His years of written research into ancient man's world of cosmology and star science contributed and embraced much to my understanding of how ancient man used 'cosmogogenesis' to guide the social order in harmony and cosmic responsibility. My discovery of the 15 square nautical mile Stargate Platform was in 1995.

Cosmogogenesis should be considered the most recent monolith of language defining a reality transfer from the Information Field of universal consciousness and knowledge keeping into psychological constructs that intentionally advances humanity spiritually under the One True Creator's architecture.

Cosmogogenesis focused on how the background field of the stars surrounding the ecliptic and expressed in the zenith and nadir fields, a sociology using both archetypes and stories about the human will defined by the godhood ruling from the celestial abode.

Cosmogogenesis would have been a useful tool in the development of Earth-like planets participating in a shared societal program. These programs apply to all carbon-based life forms.

The finality is only defined by our perceptive awareness of Cosmic Intent versus Rational Forbearance.

These contradictory forces rise out of the philosophy of science, the essential ingredient for participating fully in our expanding cosmology. Brucel conveys one message at this late hour, that we have all reached past the point of a 'cosmic responsibility' that could save this human genome from extinction.

The Last Jubilee - The Untold Story of Our Cosmic Inheritance

The writings in the Trilogy evoke a message that our approach to the next Age of Being, called the Aquarian Era is likened to a flash-drive being downloaded into our personal holographic representation of existence for our Level 1 Civilization. Our design endures its imperfections based on the struggle for freedom of the human will.

“When all the messages provide the same sense of up and down, the Aboriginal message declares ancient unification on a global basis. Our quest, beyond the legends we have cast into the heavens as sacred scriptures, is to determine if the ideas of the sacred scriptures were carried to Australia or derived from Australia.” Rush Allen
